

E-safety resources

<http://www.childnet.com>

Childnet International is a non-profit organisation working with others to “help make the Internet a great and safe place for children”. The site includes ‘Kidsmart’ with lots of fun activities for Primary children and also ‘Know IT All’ which is described below.

www.childnet.com/kia/parents

Know IT All is Childnets award winning suite of educational resources to support teachers, parents and children. Their advice for parents includes information on social networking and cyberbullying and some really useful family resources.

<http://swgfl.org.uk/>

South West Grid for Learning (swgfl) is North Somerset’s broadband provider for schools and they provide our security and filtering systems. They also provide some very useful e-safety resources (search for 'parents').

<http://thinkuknow.co.uk/>

This website is supported by the Child Exploitation and Online Protection Centre (CEOP) and demonstrates some of the risks children face online, including grooming, and provides information about how to protect your child.

Links for parents.

- [New E-Safety Link](#) On Line Safety information for parents from the NSPCC
- [Hector the E-Safety Dolphin](#) This child friendly safety button is now available for download at home in both Windows and Mac OS formats.
- [Pan European Game Information](#) Information for parents and carers on age ratings.
- [Internet Parental Controls](#) the 4 big internet providers in the UK – BT, Sky, TalkTalk and Virgin Media - provide their customers with free parental controls which can be activated at any time. Video guides to help you to download and set-up the controls offered by your provider are available on the UK Safer Internet Centre website. Parents have asked how to spot cyberbullying. These are a selection of sites with information on what cyberbullying is and what it looks like.

Cyberbullying
